MORE INFO

COMPOSITION:

Bloodroot (*Sanguinaria canadensis*), Galangal or Blue Ginger (*Alpinia galanga*), Graviola (*Annona muricata*), Chaparral (*Larrea divaricata*), Zinc chloride, Glycerine, DMSO (dymethyl sulfoxide), distilled water.

DESCRIPTION:

The black paste or black salve is an ancient herbal formula from ancient American culture.

Its composition is 100% natural and is intended for the treatment of leather.

Apply a small amount on the leather surface to be treated (about 1 cm²) for 24 hours. Remove with warm water and then observe the results on it.

Special container with tinted glass to preserve the content of the degradation due to ultraviolet light. It is very important to remember that the characteristics of this product should avoid metal or plastic containers.
